

SCAGO
Sickle Cell Awareness Group of Ontario

LOOKING FOR A GROUP THAT SHARES SOMETHING IN COMMON WITH YOU?

HERE WE ARE!

We are SCAGO Parent Support Group Network. We understand that Sickle Cell Disease does not only affect the patients but also the family members. Most especially the toll is harder on the parents/guardian, shuttling between work, social life and the child / children.

We as a group help parents work together because we all share something in common – SICKLE CELL DISEASE. So we understand where the shoe pinches and help soothe through a variety of activities like:

-  Spa Day
-  Fun Night
-  Hospital Visitations
-  Home Visitations
-  Babysitting
-  Fundraising & Events' Coordination

All answers and information are confidential and used for statistical and informational purposes only.

We will not sell or diverge any information to anyone outside SCAGO.
